

Future of the Bothnian Bay-seminar

The seminar aims to bring together organisations working with marine related issues of the Bothnian Bay to discuss possibilities for future collaborations.

Date: 6th of October 2021

Where: Oulu, Finland

Themes of the seminar

- What kind of needs do our organisations have in terms of e.g. future management, data, method development, collaboration?
- Challenges our organisations are facing when it comes to our work within the Bothnian Bay?
- Possibilities of future collaborations?

Presentations and joint discussions

The morning will be dedicated to presentations from each participating organisation and joint discussions.

The afternoon will have a practical approach with focused discussions in smaller groups about possibilities for future collaborations.

For any questions, please contact us:

suvi.saarnio@ely-keskus.fi (Finland)

linnea.bergdahl@lansstyrelsen.se (Sweden)

More detailed information about the seminar and link to registration will be sent out closer to the date.

Due to the uncertainties of the covid-19 situation, there is a possibility the seminar will be postponed and/or changed to an online seminar. If so, we'll keep you updated.
